

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Catalogued by SCOTT & COMPANY.

BIDS WILL BE FAITHFULLY EXECUTED BY THE AUCTIONEERS.

New York:
John Polhemus, Printer, 102 Nassau Street.

P R E F A C E .

We wish to call particular attention to the fact that the coins in this collection are to be sold in the *evening* instead of the afternoon, as usual. We have made this change for the convenience of gentlemen who are unable to attend auctions held in the day time, thereby giving all an opportunity of purchasing, and also of seeing what they buy. The coins will be on exhibition throughout the day in the salesroom.

For the pieces that are to be sold, the catalogue is the best guide; and even a cursory glance through its pages will show the amateur that there are pieces which would be a desirable acquisition to any collection in the country, together with many beautiful, cheap sets which are hard to procure of dealers.

In regard to the condition of the various pieces, we can assure intending purchasers at a distance that they have all been faithfully described, and in cases of the slightest doubt, the condition of the coins has, if anything, been rather under estimated.

*The prices attached are for each piece
except where otherwise mentioned.*

INTRODUCTION.

IN presenting this Catalogue to the friends of Numismatics, all I ask is a careful examination of it. I am satisfied that every one "will find his hobby."

The Ancient Greek and Roman Coins are, with few exceptions, from the cabinet of a renowned German Numismatist, and I warrant them to be genuine Antiques.

Among the American Colonials and United States Cents are many really beautiful, rare and desirable pieces, and the Medals also embrace specimens of great rarity.

The collection of Masonic Medals is the largest, as well as the finest, ever offered in this country.

In describing the condition of the pieces, I have followed my own scrupulous judgment, which has thus far been endorsed by the confidence and approval of my friends.

I intend to have another sale in a short time, which will contain the second part of the Ancient Roman Coins in Gold, Silver and Bronze, a full line of English Coins and Medals, and another interesting assortment of the American Series.

P R E F A C E .

We wish to call particular attention to the fact that the coins in this collection are to be sold in the *evening*, instead of the *afternoon*, as usual. We have made this change for the convenience of gentlemen who are unable to attend auctions held in the day time, thereby giving all an opportunity of purchasing, and also of seeing what they buy. The coins will be on exhibition throughout the day in the salesroom.

In regard to the condition of the various pieces, we can assure intending purchasers at a distance that they have all been faithfully described, and in cases of the slightest doubt, the condition of the coins has, if anything, been rather under-estimated.

For the pieces which are to be sold, we refer the amateur to the catalogue, where he will doubtless find many desirable pieces, especially among the U. S. silver and American colonial series.

To the large number of new collectors to whom this Catalogue will be sent, and who have not yet commenced to purchase their coins at auction, we would say in regard to the selling, each lot will be knocked down to the highest bidder ; the lots are sold so much for each coin in it, so if you desire a lot of coins which contains ten, and you wish to pay \$1.00 for it, your bid should be 10 cents, which would be \$1.00 for the lot. Amateurs sending their bids in from a distance, should be very particular in regard to this. The Auctioneers, Messrs. Scott, and other dealers, will attend to the purchasing of any desired lots for parties unable to attend the sale, at a charge of 10 per cent. Always state your highest price, and rely on the honor of those you employ to make the purchases for you at as low a figure as possible.

Store Cards.

This cabinet of store cards is probably the largest that has been offered in this city for competition. It was principally collected from 12 to 18 years ago, the owner having devoted much time and expense in its formation, seeking, as he did, varieties in dies as also in metals. They are almost invariably in the finest condition. The great number (and not a duplicate) compels the utmost brevity to economize space; frequently pieces will be found in lots which, in a smaller collection, would be separately noticed and described.

M. A. Vattemare in his work "Monnaies et Medailles de L'Amerique du Nord," Paris, 1861, pp. 25 & 26, says, that the engravers produced in their heads of the cents from 1796 to 1807 the portrait of Pocahontas. From 1808 to 1814 the portrait of Mrs. Madison, wife of the President. From 1816 to 1838 that of Mrs. Patterson, wife of the Director of the Mint; again on p. 56 he states that the portrait was continued until 1856; and on p. 62 that the half-cent of 1840 bears the portrait of Mrs. Patterson.
